

B.DIVINE
AROMATHERAPY

At B. Divine, we create functional aromas backed by science to support the wellness of the mind, body, and spirit. Our brand was born from the belief that everyone deserves a little extra support in their journey to well-being. B. Divine is more than just aromatherapy—it's a call to action to empower yourself, take charge of your health, and embrace a lifestyle of balance and vitality. We're here to be part of your journey, offering products that inspire and support your commitment to a healthier, more vibrant life.

WHAT MATTERS TO ME

Pure, 100% organic essential oils. I exclusively use organic, wild-crafted, or unsprayed essential oils from trusted sources that conduct third-party testing for quality and purity.

100% pure and natural products made solely from plant- and bee-derived ingredients. Free from synthetics, chemical fragrances, and additives—always.

Authentic Blends. Science-backed formulations crafted by a scientist and certified clinical aromatherapist. With years of experience working with essential oils, I specialize in blending the chemistry of botanicals with the emotional power of scent.

MEET THE OWNER-BETH

The story of B. Divine Aromatherapy began with my personal experience with chronic back pain, where I discovered aromatherapy as a natural, effective way to support my wellness. Later, when my son faced his battle with cancer, I turned to aromatherapy once again to help manage his mood, nausea, and anxiety. Witnessing the profound impact it had on his quality of life, I knew I had to share this powerful tool with others. That's how B. Divine was born—to offer a “tool in the toolbox” for supporting well-being.

As a mom, wife, scientist, and certified aromatherapist, I believe true health is a holistic journey that includes exercise, meditation, and aromatherapy. While essential oils do not cure, our sense of smell is one of the most powerful influences on our body and mind. At B. Divine, we combine the science and chemistry of essential oils to craft blends that support sleep, energy, mood, pain relief, and skin health.

My mission is to provide expertly crafted, science-backed aromatherapy blends that empower you to harness the natural power of essential oils. With every product, my hope is that you'll embrace the transformative potential of these aromas as an essential part of your wellness journey.
